

**Joint Video Experts Team (JVET)
of ITU-T SG 16 WP 3 and ISO/IEC JTC 1/SC
29/WG 11**

11th Meeting: Ljubljana, July 2018

Document: JVET-K1010-v2

MPEG: m43989

Title: **JVET common test conditions and software reference configurations for SDR video**

Status: Input document to JVET

Purpose: Proposal

HEADER EXCERPT FROM SOURCE DOCUMENT

Abstract

This document defines common test conditions and software reference configurations to be used in the context of core experiments (CE) conducted after the 11th JVET meeting. These common test conditions are also recommended for use in technical contributions to the 12th and following JVET meetings, if applicable.

Introduction

Common test conditions are desirable to conduct experiments in a well-defined environment and ease the comparison of the outcome of experiments.

This document defines 4 test conditions, reflecting intra-only, random-access, and low-delay settings:

Intra, 10 bit
